

AOGIN

Asia Oceania Research Organisation
on Genital Infections & Neoplasia

Is this the end of cervical cancer?

The impact of vaccination
& HPV DNA testing

23 June 2007

CPE/CME points have been applied for from the following organisations: RANZCOG, RACGP, ACRRM, RCNA, RACP, RCPA

PROGRAM OVERVIEW

The impact of vaccination and HPV DNA testing

- All you need to know about HPV DNA testing in clinical practice
- The latest update on cervical cancer/HPV vaccines
- Have your questions answered by our panel of experts from around Australia as well as Professor Jack Cuzick, London, UK

The conference will focus on two highly relevant issues (vaccines which prevent cervical cancer and the latest on HPV DNA in clinical practice) and will be aimed at Australian health professionals, namely, General Practitioners, Immunisation Nurses, Obstetricians, Gynaecologists, Sexual Health Workers, Adolescent Health Specialists, Public Health Doctors, Pathologists, Cytopathologists, Microbiologists and Gynaecological Oncologists.

The conference will also address the psychosocial aspects of the quadrivalent HPV vaccine rollout and the education of the public about HPV, as well as review the information available to those in the health sector.

OFFICIAL OPENING 8:30 am
